We are intellectually curious and highly collaborative with a passion for excellence. We work towards building a “Long Term” bond with our clients in providing them solutions which are of high value by optimizing and leveraging technology.

DELQ SOLUTIONS aims at bringing all Corporate solutions to its clients with essential Quality. Our value proposition is our increased consciousness in Product and Service quality which enables us to sustain the competition. The rich experience of the DELQ team empowers and motivates in continuously improving the Efficiency, Quality and Productivity thereby setting higher standards for benchmarking as we move on. DELQ Solutions’ approach moves with the business goals and objectives of its clients to divulge instantaneous and realistic results.

DELQ SOLUTIONS manoeuvres your requirements with a passion to innovate and outclass. Quality is often considered to be the core epicentre for any organization, DelQ advocates the same school of thought in all the projects it undertakes driving them through proven process- driven methodologies and approaches.

DELQ Training

DELQ SOLUTIONS offers Training solutions and courses whose main focus is bringing about a transition of Individuals, Teams and Organizations as a whole towards business excellence. We believe that there is a direct link between the investment made by the Organization and Market Capitalization.

we take utmost care in designing Training Courses and Modules which suit the requirements of the participants. We custom design Programs to fit the Clients’ requisites and requirements to bring about enhancements in the individual performance, which in turn helps the Organization in achieving its goals.

The Training solutions and services provided by **DELQ** enable and facilitate meaningful Learning and Development for individuals and groups. Our sessions and modules provide the spark for Process Innovation and Creative Thinking, and helps you to align with the long term Organizational goals and objectives.

“Transforming Individuals to Professionals”

Soft Skills Training

Our Soft Skill Training emphasizes and focuses on those elements which require change in behavior and thinking; we craft training modules which inculcates the behavioral changes in individuals bringing about transition and enhanced performance. Our soft skills training can be created for personnel at any level in the organization. Organizations need people at all levels to be more self-sufficient, resourceful, creative and autonomous. This behavior enables staff to operate at higher strategic level, which makes organizations more productive and competitive. People's efforts produce bigger results for Organizations'.

DELQ SOLUTIONS works with Innovative Ideas in incorporating Soft Skills Training solutions to achieve practical results. We provide an environment which is conducive for learning. We concentrate on the development of the individuals through Experiential Learning and Development

Technical Training

Systematic planning, development, implementation, monitoring and evaluation of our Technical Training programs enable us to stride through the completion. We strive on providing a course curriculum which is in-line with the industrial requirements. One of the key aspects which makes our Technical Training programs effective is the selection of the appropriate methodology. We provide a conducive learning environment and replicate the industry environments and scenarios to make learning more effective.

Our participants practice what they learn. People remember what they do rather than what they hear. We specialize in providing Training in niche softwares and technologies and our Trainers are certified professionals bringing the excellence and transitioning the aura of knowledge and excellence.

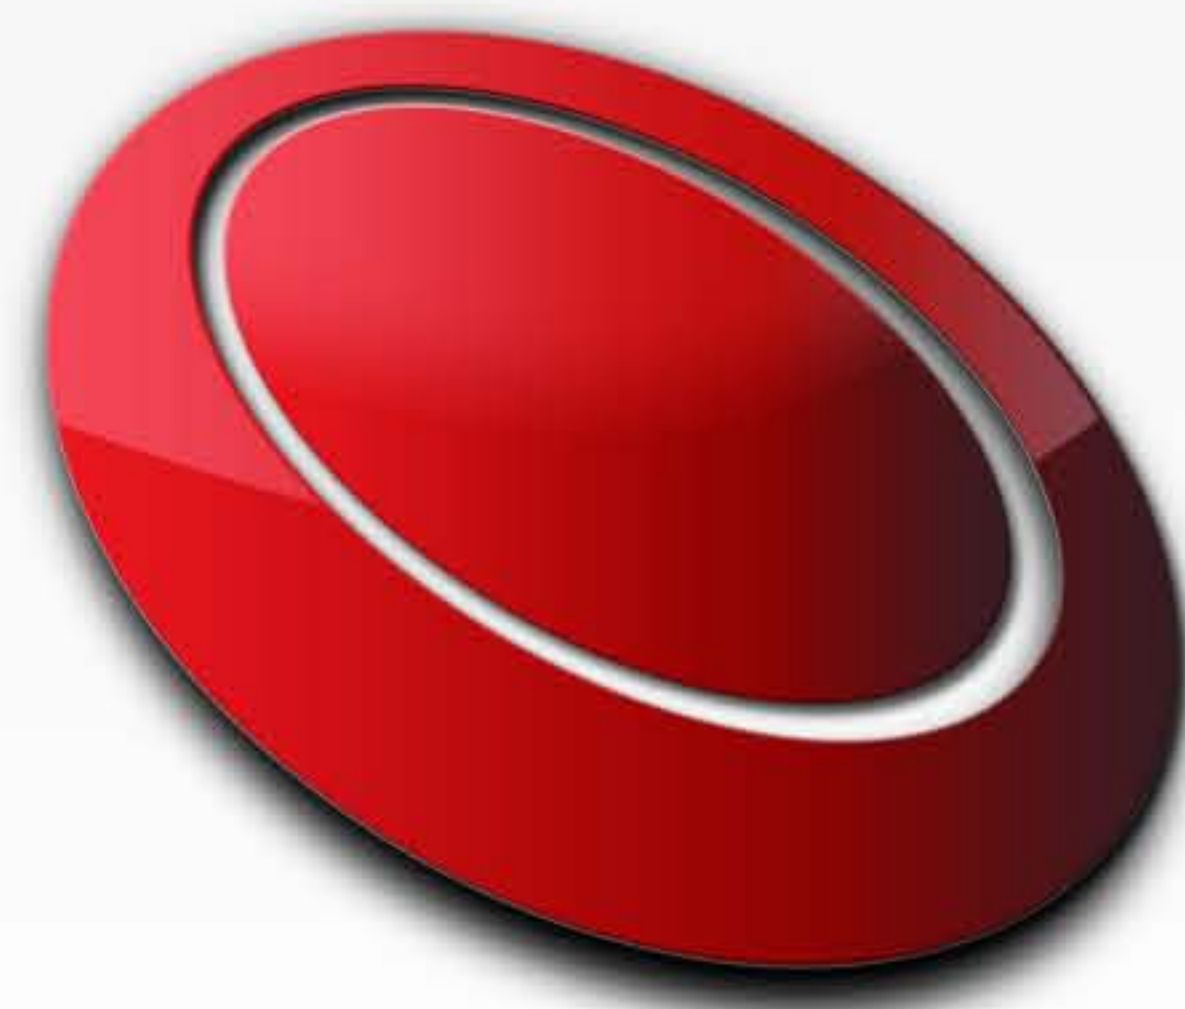

The main objective of our Trainings and instructors is to enable all the participants is to master the software or the technology, with individual concentration and course material which is rather simple and effective.

Our methodologies make learning a totally different experience which one relishes and carries the experience and the learning.
